PROTECT LINE

Pure and durable

ALWAYS BETTER

The right solution to every demand

RHEINZINK is the world's leading manufacturer in titanium zinc. All the innovations in product development and quality standards for titanium zinc, have been set by RHEINZINK. For over 45 years, the company's dedication to innovation and product development continue to move forwards. Having invented the prepatination process we are still looking to improve it, as only an industry innovator can.

The future developments for the titanium zinc industry will be guided by these innovations. We have extended our range, with the introduction of these new RHEINZINK-product lines: PATINA LINE, PROTECT LINE, COLOR LINE and INTERIEUR LINE. Added to this, we offer customers not only the widest range of titanium zinc products, but also match the high requirements and demands of our market partners. All under the banner our company's ethos: ALWAYS BETTER.

- Natural material
- 100% recyclable
- Durable, maintenance-free and hard wearing
- Installed to a high standard by skilled craftsmen
- Extensive product range
- Over 45 years experience in manufacturing and the supply of titanium zinc
- Technical support and installation advice

RHEINZINK-PROTECT LINE

Pure and durable

This range is characterised by a transparent coating providing durable surface protection to the pre-weathered, pickled surface. This coloured and grained surface is also extremely resistant when used in harsh climatic conditions and coastal locations. Difficult details such as soffit cladding can easily be achieved with this new surface protection. RHEINZINK-PROTECT is available in blue-grey and graphite-grey and should be the first choice when it comes to considering environmental factors, to provide a lasting titanium zinc solution.

- Protected by a durable transparent coating, providing extra resistance in difficult climatic zones
- Added protection for preweathered surface
- Ideal for roofing applications and a wide range of RHEINZINK products, to suit architecture details
- Easy to process and fabricate
